**What:** “Anti-Racist” trainings reveal why Goldwater’s AZ School Transparency Reform is critical. A national movement that paints American society as a systemically racist culture in desperate need of radical reform has arrived in AZ schools. Should our schools be encouraged to promote academic excellence, or undermine confidence in America’s constitutional republic? **Matthew Beienburg** is the Director of Education Policy and the Director of the Van Sittert Center for Constitutional Advocacy at the Goldwater Institute.

**Kurt Rohrs** regularly attends Chandler School Board Meetings and has testified on many proposed changes. He will inform us how we can influence school policy from our own homes! For more information, visit [www.slgop.org](http://www.slgop.org).
